Revised 2/2017

Leadership in Trustee Education

The mission of the Pennsylvania Association of Public Employee Retirement Systems

(PAPERS) is to encourage and facilitate the education of its membership in all matters related to their duties as fiduciaries overseeing the assets of the pension funds with which they have been entrusted.

The primary purpose of

PAPERS is to offer educational conferences and training opportunities that provide the basis for improved financial and operational performance of the public employee retirement systems in the State.

PAPERS functions as a central resource

for public pension education purposes and acts as a networking agent for public plan staff, board members and the various firms providing service to the public pension community.

Educational Opportunities

The PAPERS Forum, held each spring for two days in Harrisburg, brings together up to 200 persons working in PA's public pension plans. These Forums feature outstanding state and national pension experts speaking in numerous seminars.

The PAPERS Fall Workshop

alternates between the Pittsburgh and Philadelphia areas to provide pension plans in other parts of the state the chance to attend an educational conference close-by.

Both conferences provide ample social activities to facilitate networking.

On-Line Webinars

are held throughout the year, providing the opportunity to connect electronically to a one-hour presentation/discussion on a pension related topic. From the comfort of your office or home, you can interact with other pension professionals to enhance your knowledge and skills.

Newsletters

are published intermittently by PAPERS on timely and pertinent pension topics. Many issues feature articles written by nationally recognized investment and pension experts.

PAPERS, founded in 2005, has grown to include a diverse group of **Participating Members** representing approximately \$100 billion in pension fund assets and serving over half a million members. Many corporate organizations providing services to public pension plans provide support as **Associate** and **Affiliate Members**.

PAPERS Governance

The Board of Directors of up to nine persons is selected from among the **Participating Members** to serve as PAPERS' official governing body.

The Corporate Advisory Committee of up to eight persons is selected from among the **Affiliate** and **Associate Members** to act as the liaison with the corporate community.

Typically the Board and Corporate Advisory Committee meet together 3-4 times each year to determine the direction for all aspects of PAPERS' work. Only Board members have voting privileges on matters of official business.

Currently PAPERS employs two staff members to assist with implementing and marketing its activities/purposes.
